

**AIMS**

- Inspire innovative and informative IS research that is relevant to the social, economic, and cultural particularities of the Mediterranean Region.
- Foster ground breaking IS research to improve the quality of life in the Mediterranean Region through further development of the regional knowledge base and its emerging collaboration infrastructure.
- Raise the visibility of IS-related research, education, policy, and practice carried out in the Mediterranean Region.

SCOPE

MCIS 2011 aspires to bring together researchers, educators, policy makers and practitioners from the region for a high quality IS conference with solid academic and practitioner foundations.

DOCTORAL AND JUNIOR FACULTY PROFESSIONAL DEVELOPMENT CONSORTIUM

Aims to provide a supportive and developmental forum in which participants can discuss their research and receive high quality constructive feedback. Doctoral students and junior faculty members are invited to submit an extended abstract or a position statement of their research interests.

CONFERENCE SUBMISSIONS

The conference invites submissions on a broad range of IS themes relevant to IS research and education. Submissions with a focus on policy and practice in the Mediterranean region are especially welcome.

Selected papers will be considered for publication by a number of academic publications (e.g. IJDAR, IJESMA, BISE, etc).

CONFERENCE TRACKS

Economics and Value of Information Systems • E-Services and Business Process Management • E-commerce, E-business, E-Government • Business Intelligence, Data Warehousing and Data Mining • Human Behaviour and IT • Online Communities and Group Collaboration • Organisational Theory, Strategy and Information Systems • Design Science • Information Systems Security and Privacy • Mobile, Pervasive, Ubiquitous IS • Cloud Computing • Sustainability and Green IT • IS Applications for Culture and Tourism • Health Informatics • Graphics, Visualization and Media • Interdisciplinary and Emerging IS • Information Systems Policy and Practice in the Mediterranean Region • Information Systems Curriculum, Education and Teaching Cases • Research Themes • Panels
